

## **Anaheim St. to I-710 Ramps, Harbor Ave. to Close West Long Beach roadwork to detour traffic this weekend**

April 30, 2014

On- and off-ramps connecting the I-710 Freeway to westbound Anaheim Street in West Long Beach will be closed this weekend from 6 p.m. Friday, May 2, to 6 a.m. Monday, May 5, for a repaving project. Traffic will be detoured to Pacific Coast Highway. The work was delayed one week due to rain.

Harbor Avenue will also be closed to north-south traffic at the intersection with West Anaheim Street this weekend during the same time period, 6 p.m., May 2, to 6 a.m., May 5. The closure will temporarily block access from north of Anaheim.

Meanwhile, Anaheim will continue to have two lanes open in both directions in West Long Beach throughout the weekend.

The work is part of an ongoing project to improve West Anaheim from the 710 Freeway to 9th Street at the western city limit.

An additional detour will be required the following weekend. The north half of the intersection of I Street and Anaheim will be closed from 6 p.m., May 9, through 6 a.m., May 12. That will close I Street access to Anaheim from the north side temporarily, and north-south traffic through Anaheim will be prohibited.

West Anaheim is undergoing a 14-month-long improvement that started in September 2013. The City of Long Beach Harbor Department is overseeing the work to improve the street, which is the northern boundary of the

harbor district. In addition to roadway resurfacing, the project includes improvements for sidewalks, bus stops, median, and access for the disabled and landscaping.
