Exception 1: Three fourths (3/4) of the pilotage fee shall be assessed when a vessel subject to the payment of pilotage is not piloted by a pilot employed by the Piloting Contractor.

Exception 2: No intra-harbor shifting charge shall be assessed an entering vessel which anchors because of inclement weather or other causes beyond the control of such vessel, if such vessel proceeds thence to berth immediately after such cause of delay ceases to exist.

(b) The pilotage accessed for the services proffered or rendered by the Piloting Contractor are assessed in accordance with and based upon each and every of the limitations, agreements, covenants and conditions set forth in Item 205, and this Item 220. However, the rates and charges for pilotage do not include marine insurance insuring the vessel, her owners, agents, charterers, and operators against the consequences of the negligence of the pilot, the Piloting Contractor, or other employees of the Piloting Contractor. Upon reasonable notice from the owners, agents, charterers or operators of the vessel, the Piloting Contractor will provide such marine insurance on a trip basis in an amount specified, up to a maximum limit of liability of \$2,500,000, the premium for which will be assessed at cost in addition to the pilotage specified above.

The coverage provided will insure the vessel, her owners, agents, charterers and operators, as their interests may appear, against those losses or physical damages to the vessel and against those legal liabilities and damages which arise from the consequences of the negligence of the pilot, the Piloting Contractor, or other employees of the Piloting Contractor; provided, however, that such insurance will provide coverage only for that proportion of losses, damages, and liabilities sustained by the vessel, her owners, master, operators, and charterers proximately caused by the negligence of the pilot, the Piloting Contractor, or other employees of the Piloting Contractor, and that no coverage is provided for losses, damages or liabilities resulting from any other cause whatsoever.

A copy of the insurance policy under which such insurance is available will be provided upon written request to the Piloting Contractor.

- (c) If a request for a pilot is cancelled less than one hour prior to the requested time, a charge of \$465.00 shall be assessed.
- (d) If a pilot is required to stand by in excess of one hour, a stand-by charge of \$465.00 per hour or fraction thereof shall be assessed in addition to the charges named in Paragraph (a) hereof.

Tier 1 incentive (20nm): Any Vessel Operator demonstrating that 90% or more of all its Vessel Trips occur during the current calendar year at a Weighted Average Speed of 12 knots or less in a zone that extends 20 nautical miles seaward from Point Fermin may deduct 15% from dockage otherwise payable to the Port of Long Beach under this Tariff No. 4 for the following calendar year upon written confirmation by the Port that a Vessel Operator has qualified for the dockage deduction under Tier 1.

Tier 2 incentive (40nm): Any Vessel Operator demonstrating that 90% or more of all its Vessel Trips occur during the calendar year at a Weighted Average Speed of 12 knots or less in a zone that extends 40 nautical miles seaward from Point Fermin may deduct 25% from dockage otherwise payable to the Port of Long Beach under this Tariff No. 4 for the following calendar year upon written confirmation by the Port that a Vessel Operator has qualified for the dockage deduction under Tier 2.

For purposes of this tariff item, the following definitions shall apply:

PROGRAM PERIOD means January 1, 2006 through December 31, 2017.

RULE 34-B1: SECTION 2 - PILOTAGE/DOCKAGE (CONTINUED) (Continued)

Tier 1 & 2 incentives are calculated by the Port. The Chief Executive has exclusive discretion and final determination of vessel operator and corresponding incentive amounts.

A VESSEL TRIP is any one-way voyage into or out of the Port of Long Beach or the Port of Los Angeles measured from the seaward edge of the "Precautionary Area" shown on the harbor area navigation charts to: (a) the El Segundo Marine Terminal (for vessel Trips between the ports and the El Segundo Marine Terminal); or (b) to the arc of a circle having its center at Point Fermin Light with a radius of 20 or 40 nautical miles (nm) (for all other Vessel Trips).

Alternative Emission Reduction Speed (AERS): In the event the Port and a Vessel Operator formally agree in writing that for a particular vessel, or vessels, higher emission reductions are achieved while traveling at a speed greater than 12 knots, the agreed to vessel speed shall be used to determine compliance in the Voluntary Vessel Speed Reduction Program by the Port.
